5. In accordance with the Anti-Deficiency Act, tuition is due on or before the first day of each quarter, and it must be paid using current-year funding of the fiscal year in which the academic quarter begins. If tuition is not received by this time, a bursar hold will be placed on each student account, preventing the student from participating in class until tuition has been paid. Lack of payment will result in disenrollment.

6. For tuition for fall quarters that begin in September, US Government activities must use current year funding. If using an appropriation that expires at the end of the current fiscal year, the funding document must be issued as a "Project Order" with period of performance/work completion date concluding on 31 December of appropriate FY annotated. For this to occur, the body of the funding documents must annotate "Project Order" and include the following statement, "[This project order is placed in accordance with the provisions of 41 U.S.C.23, as implemented by Department of Defense regulation. The funds cited on the project order are properly chargeable for the purposes cited in the project order.](#)" US Government activities using non-expiring appropriated funds must pay for that quarter as an "Economy Act" with a work completion date of 31 December of appropriate FY annotated. All other quarter payments can be issued as an "Economy Act" with an expiration date of 30 September.
